

GAS FILLER CUP (STOPPER)

Code No: 0216-0002

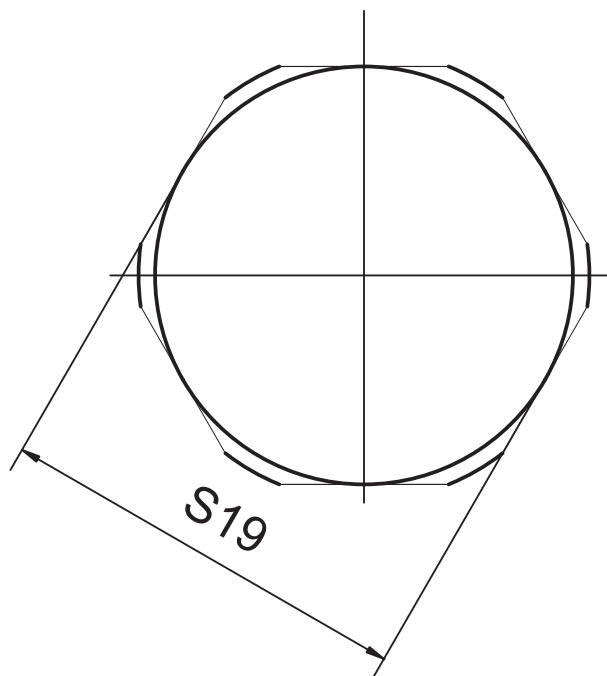

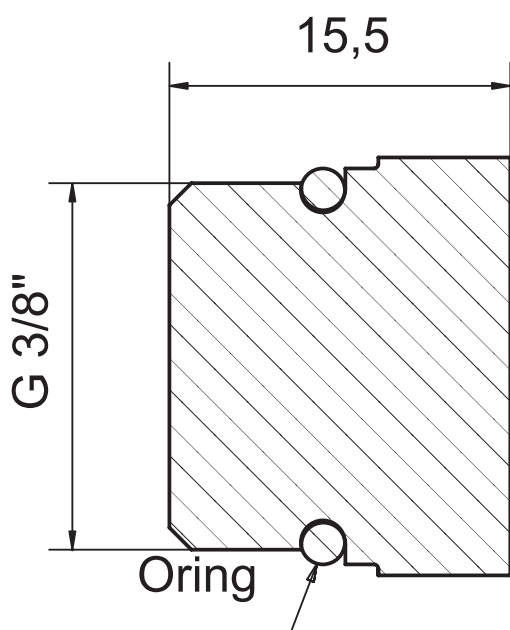

Application

Gas filler cup is designed to be assembled on sequential gas injection installations. They are used to block the gas channel. It can also be used as a plug on other types of 3/8" channels.

Construction

Gas filler cup is made of brass. The O-ring seal is made of rubber that is resistant to the impact of liquid gas and petrol oil. On request, the reduction can be manufactured with nickel coating.
